Canadian Division of TTOS

PRESIDENT'S REPORT

I am back! Australia was great but many things are way better here in Vancouver. Thanks go Gary, Dave and the executive for doing a great job in my absence. The train show in Bellingham was a fun day. Thank you to Tom and all the Washington members. I look forward to a great April meeting as I have been having train withdrawal.

Please be sure to attend the April meeting and bring your payment for the PGE tank car. The delivery looks to be early so we need the payment ASAP. [See Page 2] Over 50% sold so far and most members have not bought as yet. You will be very disappointed if you miss out on this car.

As a check to see if you actually read the President's report, I will be having an open house on Wednesday April 20th at the new house (16266 - 26 Avenue, Surrey). Corner of 26th Ave and 162A St. Call me if you get lost (604 560-4028). Come on by any time after 7:00pm. I do not have much running, but you can see the progress to date.

See you in April,

Mark

“three rail roach”

(a letter from Marchie, th’ collector/cockroach)

to the editors

hello and a lifetime investment in happiness to you and yours from marchie the railroach my grand uncle archie sends regards too although i will always be a toy train freak a lot has changed since my last note but such is the busy life of a train obsessed roach like yours truly i believe my family and i are somewhere in texas the food here is great but the hot sauces burn my thorax thats ok i never wander far from a package of tums that my ominous son and a couple of hell’s roaches friends of his rolled all the way back here from the antacid concession at a tca auction

our family hitched a ride here in a lionel number 2291W denver and rio grande set box we were attending the local gats show and thinking about a residence change when i overheard a collector with a deep texas twang negotiating for this used grade eight plus set box believe me i know boxes i marched my family inside through a rip on the bottom of the box grade eight plus oh sure no doubt we are train nuts i say that because what might simply be a 650 dollar torn cardboard box to another multi legged family felt like the lionel hilton to us when we heard him yell sweetheart ah’m home we skeedaddled as they say down here he put the set box down and we were just so outta there

life is sweet here in the air conditioned rumpus room with his fairly cool layout its set in fall and has a mountain and a couple bridges which i have fun scurrying over under sideways down when the big guy is upstairs my two youngest sons have actually ridden inside his bright red number 6476 hopper and my oldest daughter has grabbed the underside of a rubber cow and ridden the cattle car circuit a few times although i dont approve of that kind of stunt mind you

guess i will be going now so i can get this to you your old three railroach pal marchie is cool but has yet to make the transition to email until then i will settle for using our hosts computer and printer we still have to fold the letter and stuff the envelope and drag it - for real not computer drag - into his outgoing mail lucky ive got lots of help

marchie has always believed that train people are special people who often share their good fortune so dont let me down remember to leave something nice on the floor or even the table before you go to bed and when you are at train meets or shows be extra careful where you step the life you save may be mine

regards

marchie the 3-railroach
